**SHIPPING POINT, SEMMES, ALA.**

## TERMS AND CONDITIONS OF SALE

**Prices**—5, 50 and 500 of same variety and size at 10, 100 and 1000 rates respectively.

Prices in this list cancel all previous quotations, and are subject to change without notice.

**Car-load Orders**—and when trucks are sent to our nurseries for B&B plants when we do not have to pack plants, we will be pleased to offer very attractive prices on B&B plants.

**Terms of Payment**—Cash with order, from unknown people or those who prefer to earn discount. When cash with order, we make the discount of 3% and boxing free, which means total earning of about 10%.

C. O. D. shipment will be considered as cash order, only when deposit of 25% is sent with order.

For charge accounts, our term is 60 days net, boxing at cost. New accounts opened only upon receipt of trade references, allowing time for investigation.

**Transportation**—Please state whether you want your shipments by parcel post, express or freight. When no instructions are given, we will use our best judgment in selecting best method of shipments. We make no charge for delivery to railroad station, but our responsibility ceases when goods are turned over to carrier and risk and cost of transportation belong to purchaser.

**Claim**—If we make any mistake or any reason to complain, please write immediately upon receipt of goods and we will be pleased to adjust the matter.

**Condition of Sales**—We accept all orders upon condition that they shall be void should any injury befall stock from causes over which we have no control.

## AZALEAS

Azaleas are without doubt the most beautiful flowering plants we have in the south. Their season of blooming is very long, beginning with winter flowering *Vitata* *Fortuni* and extending into June when the pretty dwarf *Azalea Macrantha* is covered with its soft, orange pink blooms. All azaleas are profuse bloomers and in the spring each plant is a solid mass of color.

Azaleas of all types are easily grown if a few rules are followed. They require a good, well drained soil that has a slight acid reaction. The addition of leaf mould, peat and in very heavy, stiff soil a small quantity of sand is always beneficial. Leaf mould and peat help maintain an acid soil and a mulch of leaves is good to retain moisture and to furnish plant food for the next year. Azaleas are shallow rooted and an abundance of water in dry weather is necessary, especially with young plants. Watering among foliage with a hose is desirable as a strong spray holds thrip and red spider in check.

Partial shade is desirable in planting but dense shade should be avoided. A lath house is well suited for growing plants on nursery. They should be fertilized sparingly; light application of cotton seed meal about three times a year, is one of the best treatments. It is to be remembered that plants that have a quantity of large sappy growth produce far less flowers and are much more likely to be killed by freezing weather than slower growing plant of the same variety.

Lining out size *Azalea* offered here were rooted in last spring and planted in beds early in summer, giving plenty space for full development of strong root system and bushy tops and far superior to 2½ inch potted plants, having roots enough to fill 3 inch pot which have twice the capacity of 2½ inch pot.

We have thousands of lining out size azaleas ready for immediate delivery but since these small plants have much of tender growth and easily damaged by frost, we advise to protect them against the frost this winter. Extra expense of frost protection will be more than repaid by better growth you will gain by early planting but those who are not prepared to protect them is well to let us book orders and make delivery in spring after all danger of frost is over, without any additional expense to our customers.

## AZALEA INDICA

The *Indica* group which are fast grower with mass of large flowers are especially adapted for landscape planting all along the Gulf Coast up to Atlantic seaboard of North Carolina. Around Mobile, Charleston and some other sections, there are plants of seventy to one hundred years old with spread of twenty to thirty feet across, apparently without any special care, showing they are perfectly at home and easy to grow. Nurserymen in this entire section have golden opportunity of giving most lasting satis-

faction to their customers and incidentally enrich themselves by planting extensive collection of this showy plant in their nurseries, because azaleas will sell themselves when your customers see them in full bloom. We are listing most of important varieties, eliminating weaker growers or inferior flowers when same color can be had in better varieties.

**Brilliant**—A good grower with small dark green leaves. Deep watermellon color, being intermediate of Pride of Mobile and Pride of Dorking. Very good variety.

**Criterion**—Compact grower with color of strawberry ice cream, streaked with deeper pink and margin of white. Late bloomer and very attractive.

**Croemina**—Fast growing light pink flower of large size of early season.

**Duc de Rchan**—Compact grower with pretty small leaves and profuse bloomer of beautiful salmon pink flowers. One of best plants for pot culture.

**Elegance**—Fast and rather upright grower similar to Formosa with light colored pink flowers in early season.

**Flag of Truce**—Good size double white flowers have ruffled edge petals. Compact grower.

**Formosa**—Very fast grower with large dark leaves and large purplish pink flowers which have less purple than Phoenicia.

**George Franc**—Early bloomer with extra large salmon pink flowers with deep red throat. Very showy flowers.

**Glory of Sunnyhill**—Compact grower with shiny narrow leaves and one of the latest to bloom. Vivid orange red color.

**Indica Alba**—Rather upright grower with dull colored hairy leaves. Pure white flowers in mid-season and very hardy.

**Iveryana**—Similar to Criterion except this variety has pink stripes on pure white instead of pink shade ground of Criterion.

**Mme. Dominique**—One of largest size indica, similar in color to Criterion, but taller growth, but very compact and blooms almost as late as Macrantha and very hardy.

**Orchid**—Upright grower, with light orchid colored flowers of medium size, very early.

**Phoenicia**—Fast grower with medium size leaves with flowers of purplish pink which is not often wanted with other colors, but very nice with white flowers and this variety will probably withstand more heat and sun than any others.

**Pride of Dorking**—One of the deepest red of entire group. Blooms late in season and while not very hardy, yet one of the best kind.

**Pride of Mobile**—Fast grower with large leaves similar to Formosa but of lighter color. Some of largest and choicest azaleas in Mobile section are of this variety and were known formerly as “Watermelon Pink” but we gave the name of “Pride of Mobile” four years ago which was immediately adopted by all. Plants of over 70 years old, standing over 15 feet high, smothered by countless beautiful pink flowers is a sight that cannot be equalled by any. Very hardy, fast grower, most brilliant color, mid-season profuse bloomer makes this one of outstandingly good and profitable variety for Nurserymen and Florists to handle.

**President Clay**—Good grower with orange red flowers of mid-season.

**Prince of Orange**—Spreading grower with deep orange red flowers of a little after mid-season. Very nice kind.

**Salmon**—Known locally as “Daphne Salmon”. Very hardy mid-season bloomer with pleasing salmon colored medium size flowers.

**Violacea Rubra**—Beautiful shade of wine red color with dark green leaves.

**Vitata Fortuni**—Fast upright grower with pale colored leaves. White and lavender variegated and light lavender flowers intermixed. Start blooming in fall and continue all winter and spring.

**William Bull**—Very hardy upright grower which will not grow compact when small, but after a few years, will form nice compact form. Very double, orange red flowers will last long time and one of the best.

#### Prices of Azalea Indica:

	each	10	100
4-6 inch, bed grown .....		\$ .75	\$ 6.00
6-8 inch, bed grown .....		1.00	8.00
6-8 inch, with buds B&B....	.20	1.75	15.00
8-10 inch, with buds, B&B....	.30	2.50	20.00
10-12 inch, with buds, B&B....	.35	3.00	25.00
12-18 inch, with buds, B&B....	.50	4.00	35.00
18-24 inch, with buds, B&B....	.75	6.00	50.00

All our Azaleas are many times pinched and pruned that they are compact, and loaded with flower buds. First two sizes have no flower buds and good only for growing on and unsafe to plant in open until all danger of frost is over.

### HARDY JAPANESE AZALEAS

What we are listing Hardy Japanese Azaleas and Keampferi include probably largest varieties of best money making possibility to Nurserymen and Florists of southern half of United States than any other group of plants of present day. All of them are evergreen except a few varieties which will lose leaves in New England states, and color range is large—white, pink, salmon, orange, red, and variegated. Certain varieties bloom early, others late, each has its characteristic bloom of its own.

The whole country is sick and tired of evergreens and common flowering shrubs. They are wanting bright colors early in spring and something different and what is better than this group of hardy evergreen azaleas? Most of Nurserymen in this large section of country do not know themselves what a big opportunity is waiting for them to stimulate our trade by offering this bright flowering plant to their customers.

Azaleas under this heading are not dwarf like Hinodegiri or Kurume, but fairly fast grower, making ultimate heights of ten to twelve feet and hardy in all parts of New Jersey and even farther north.

**Amoena**—One of the hardiest compact grower with small leaves and rather small size rosy purple hose-in-hose flowers. Can stand great deal of neglect.

**Amoena Superba**—Similar to above with the exception of dark purple flower shading darker toward center.

**Benigiri**—Fast upright grower with large size single bright orange red flowers. Mid-season.

**Flame**—Bright orange red flower of early season.

**Fujimoyo**—Small size hairy leaves. Medium size beautiful shade of double lilac flowers.

**Hardy Firefly**—Compact growing, very hardy azalea with good size single flower of most brilliant fiery red. One of very best.

**Hinamoyo**—Fast growing upright branches are clothed with small size light colored leaves. Beautiful shade of soft pink flowers will hide the plant. Bloom early.

**Hinodegiri**—Slow compact growers, but its fiery red flowers will literally smother the entire plant, even when they are very small, making one of the most desirable pot plants. Since the price is the same, we are putting this variety under this heading for convenience.

**Indica Alba**—(See under heading of Azalea Indica).

**Indica Rosea**—(Magnificia)—Fast grower with large size hairy leaves. Large single white flowers are tinted with rose.

**Keampferi**—This evergreen Azalea will lose its leaves in further north, where it can stand winter of Boston without any protection, and does splendidly in lower south, making large size plants. Large size single red flowers borne profusely rather late in season.

**Kimnazoi**—Compact grower with long narrow leaves. Deep red, five separate narrow petals are entirely different from any other Azalea.

**Lilacina**—(Akebono, meaning dawn)—Delicate shade of lilac shade orchid is the color of eastern sky at dawn. Strong grower with large size leaves.

**Macrantha**—Compact grower with roundish leaves with single medium size pink flowers late in season. Very hardy.

**Macrantha, Orange Red**—Similar to above with narrow leaves and orange red flowers. Very good.

**Macrantha Double Flowering**—One of the above type with double salmon red flowers. Rather new.

**Macrostemon Salmoneana**.—Medium size salmon red flowers are produced in late season very freely.

**Maxwelli**—Leaves and flowers are as large as most of Indica and carmine-red single flowers of large size is very attractive.

**Yayegiri**—Fast grower with shiny narrow leaves. Beautiful salmon red hose-in-hose flowers in mid-season. Very young and profuse bloomer.

**Yodogawa**—A semi-evergreen with narrow willow-like leaves and purplish pink double flowers early in Spring.

Prices of Hardy Japanese Azalea, including Hino-degiri and Kaempferi hybrid, such as Cleopatra, Fedora, Carmen, Othello:

	Each	10	100
5-6 inch, bed grown .....		.90	7.00
6-8 inch, with buds, B&B....	.30	2.50	20.00
8-10 inch, with buds, B&B....	.40	3.50	30.00
10-12 inch, with buds, B&B....	.60	5.00	45.00
12-18 inch, with buds, B&B....	.80	7.00	60.00

Our bed grown Azalea for lining out are noted for their strong root system and branched tops. They are fully as large as 3 inch pot plants.

### KURUME AZALEAS

This group, known botanically as Azalea Obtusum Japonicum, include varieties of more dwarfish growers and not quite as hardy as Hardy Japanese group, but all Kurume will stand winter of almost all sections of southern states without any protection and much further north with little protection.

Most exquisite and delicate coloring of these flowers, places this group, class by themselves, and while perfectly adapted for landscape use in these sections, they will also make one of the showiest pot plants because all of them are very floriferous. Do not fail to stock up with some plants because it is one of the best coming plants.

**Apple Blossom**—Hose-in-hose pink flowers are color of apple blossoms.

**Carmine Prince**—Large size hose-in-hose carmine red flowers are produced very freely. Medium height, compact.

**Cherry Blossom**—Delicate shade of pink melt into white toward center. Large size flowers.

**Christmas Cheer**—Compact grower with small shiny leaves. Deepest crimson flowers are small but very attractive, and one of best variety.

**Coral Bell**—Compact grower with small round glossy leaves have dainty bell shaped pink flowers which are not large but very profuse bloomer and one of best favorite with florists.

**Daphne**—Very compact slow grower, with delicate light lavender flowers fading white in center.

**Hortensia**—Good size, soft pink hose-in-hose flowers are produced in large trusses. Medium height.

**Lavender Queen**—Large size single light lavender flowers with white stamens. Dark large size leaves.

**Mauve Beauty**—Delicate mauve shaded flowers, fading into white center. Medium size hose-in-hose flowers are borne very profusely.

**Orange Beauty**—Compact grower with orange pink flowers of hose-in-hose type are produced in very large cluster.

**Peach Blow**—One of fastest growing Kurume with medium size single salmon-pink flowers of delicate peach flowers.

**Pink Pearl**—Large size, most beautiful salmon-rose color is shaded lighter toward center with prominent markings. Borne in large cluster.

**Salmon Beauty**—Large size, hose-in-hose salmon-pink flowers with light green foliage.

**Salmon Queen**—Large size, single flowers of salmon pink are produced in great profusion in mid-season. One of most attractive.

**Snow**—Purest white, good size hose-in-hose flowers among beautiful glossy leaves. Liked by all.

**Sunster**—Medium size, single dark rose-pink flowers are borne very heavy. Small dark green leaves and medium height.

#### Prices of Kurume Azaleas:

	Each	10	100
4-6 inch, bed grown .....	\$	\$1.00	\$ 8.00
6-8 inch, with buds, B&B....	.35	3.00	25.00
8-10 inch, with buds, B&B....	.45	4.00	35.00
10-12 inch, with buds, B&B..	.75	6.00	50.00
12-15 inch, with buds, B&B..	1.00	8.50	75.00

Our Kurume are better than ever, having shapely compact growth which are covered with flower buds, and make ideal pot plants. Our 4-6 inch liners are better than we ever offered.

#### CAMELLIA JAPONICA

Horticultural names of Camellia Japonicas are so badly confused that we are not still sure of many of them, but we have enough of kinds which are recognized by leading nurserymen by such names as we list, that we are offering these named Camellias under three classes.

We are fortunate possessor of Nouvelle Iconographie des Camellias published in 1848-1860 with more than five hundred natural colored illustrations with names and we will follow their names as far as possible.

Many names, however, will have to be revised yet, and in order not to mislead you, we intended

to print pictures of every kind we offer, but because of poor business, we decided to defer this undertaking till later date. We are illustrating seven types of flowers and by referring to them, you can form better ideas of what we mean by "peony form", "very double" etc.

In our own experience which covers many years with thousands of Camellias, we found that pot bound Camellias are very slow to "take" to soil when transplanted in field or lawn, and often die back for two and three years after transplanted. We may offer some potted Camellias for Florists' trade in future, but what we are offering now are for planting in open ground, and we are confident that bed grown Camellias lifted carefully with ball of earth, as we do, will make far better growth after transplanted in open field than pot bound stock. We would like to hear your expression on this matter.

In describing varieties, where no mention of season of flowering is made, they are mid-season varieties.

### CLASS A CAMELLIAS

**Mrs. Abby Wilder**—Peony shaped white flowers of medium to large, with tiny sprashes of pink. Compact and good grower.

**CHANDLERI  
ELEGANCE**

**Peony Form**

**HERME**

**Loose Peony**

**Chandleri Elegance**—One of largest peony flowering Camellia of cherry red with white variegated.

Some are thick peony flowers with 500 petals but some flowers are loose peony form with yellow spemens. See illustration.

**Empress of India**—Very late dahlia shape flowers have unusually pleasing salmon color which is not often found in any other Camellias.

**Herme**—Very large loose peony form of elegant shape. Pink and red variegated with white margin. Have faint scent. One of very best. See illustration.

**Lady Hume's Blush**—Very double and symmetrical petals are delicately blushed with flesh color which is much lighter than Pink Perfection.

**Monarch**—Deep pink flower of enormous size, having many clusters of stamen and petals, inside of larger outer petals, making a single flower equal to a bouquet. Beautiful foliage and compact grower.

**Otome**—Similar to Pink Perfection with much larger flowers with each end of petals fading to lighter shade of shell pink.

**Prof. C. S. Sargent**—Very thick peony form of solid crimson of medium size.

SEMI-DOUBLE  
BLUSH

Light Semi-  
Double

**Semi-Double Blush**—Not sure of name, but from stock plant imported from France several years ago. Elegant shaped light semi-double petals have identical color of Lady Hume's Blush, with beautiful yellow stamens; making one of noblest and simplest in form and coloring. See illustration.

**Prices of Class A Camellias:**

	Each	10	100
6-8 inch, B&B .....		\$ 5.00	\$40.00
8-10 inch, B&B .....		6.00	50.00
10-12 inch, branched, B&B .....		7.50	60.00
12-18 inch, branched, B&B .....		9.00	75.00
18-24 inch, specimen, B&B .....	\$2.50	22.50	
24-30 inch, specimen, B&B .....	3.50	30.00	
30-36 inch, specimen, B&B .....	4.50	40.00	

Can supply Abby Wilder and Herme in larger sizes than listed. All specimen with buds but others do not have any buds.

## CLASS B CAMELLIAS

This class includes some of very good kinds, often as good as our A Class but because of a little more plentiful supply, we are listing these excellent varieties at much lower prices.

**GLOIRE de  
NANTES**

**Center Petals  
Twisted**

**Alba Pleno**—Snow white of very double, good size flower. Very early, but poor grower, and do not set buds when young.

**Americana**—Light pink, with stripes of red, very double flowers of rather early season. Compact but slow grower.

**JARVIS RED**

**Semi-Double**

**Austill Pink**—Semi-double shell pink of medium size, stamen often intermixed with smaller petals in center. Compact, but fast grower.

**Candidissima**—Star shaped very double pure white flowers are not large but very profuse bloomer. Slow compact grower. Season late.

**Brown's Red**—Probably darkest red Camellia of semi-double form, with pointed dark green leaves.

**Comte de Gomer**—Very double creamy petals are dotted with numerous pink spots. Early season, compact, but slow grower.

**Duc de Bretagne**—Red with blotch of semi-double. Large heavy leaves.

**Duke de Orleans**—Creamy white with tiny specks of pink. Good size peony form, stamens intermixed with inner petals.

**Elisabeth**—Very double pure white petals are crinkled at end and once in a great while, pure pink flowers of same form will appear. Leaves are very dark, thick green and strong grower. One of best.

**Gloire de Nantes** — Large size semi-double cerise, center petals often twisting. Very large dark green leaves, with bold large flowers make this one of the most attractive on bush. See illustration.

**Jarvis Red**—Deep blood red, semi-double flowers with golden stamen makes this flower very attractive among dark green foliage. One of most popular kind. See illustration.

**Kellingtonia**—Orange red with stripes or blotches of white, open peony type. Always bloom heavy and extra good foliage.

**PINK  
PERFECTION**

**Very Double**

**Mme. de Strelakoff**—Large soft rose, striped with crimson.

**Mathotiana Alba**—Good size very double white with large light colored leaves. Rather late in season.

**Napoleon D'Italie**—Medium size, double rose-red, with very dark, almost blackish stripes. Compact excellent grower.

**Pink Perfection**—Very double clear shell pink of dainty form liked by many. Blooms very early but continues for a long time. Start blooming very young and heavy bloomer. See illustration.

**Prince Eugene Napoleon**—Good size very double scarlet flowers of early mid-season. Good compact grower.

**Rev. John Bennett**—Orange-red semi-double flower of good size, often stamens twisted with petal. Rather small, roundish dark green foliage and very compact but good grower.

**Rose Emry**—Crimson peony form of medium size, early in season.

**Single Red No. 1**—Large size, single red with extra large foliage.

**T. K. Varigated**—Semi-double light pink with darker pink margin, somewhat like Criterion Azalea. Elegant form and coloring, with large cluster of yellow stamens. Small leaves, compact, but fast grower.

**Theresa Mossine**—Very narrow, pleasing shell pink petals are very double. Small size leaves and very compact grower.

**Tri-color**—Semi-double flower of almost pure white to red and intermediate colors on same bush. Dark green glossy leaves.

#### Prices of Class B Camellias:

	Each	10	100
6-8 inch, B&B .....		\$ 2.50	\$20.00
8-10 inch, B&B .....		3.00	25.00
10-12 inch, B&B .....		3.50	30.00
12-18 inch, branched, B&B....		6.00	50.00
18-24 inch, specimen, B&B....	2.00	17.50	
24-30 inch, specimen, B&B....	2.50	22.50	
30-36 inch, specimen, B&B....	3.50	30.00	
3-4 feet, specimen, B&B....	5.00	45.00	

We can furnish some 15-18 inch branched class B Camellia with some flower buds at from 75c to \$1.00 each, in certain varieties early in season. All specimen are with flower buds but others without.

#### CLASS C CAMELLIAS

This includes more of common double flowering kinds, such as **Lady Campbell**, which are double red of good size; **Sarah Frost**, double rose-red of very

**SARAH  
FROST**

**Double Rose**

good compact grower (see illustration); **Lily**, double white of medium size and fast grower; **Sangdon**, semi-double shell pink of fast grower; several variegated kinds. As the class, most of varieties are very fast growers and hardier than more choice sorts.

We also offer at this class prices, several of very good double flowering kinds which names are not known to us, so we offer them by color of Red, Pink, Variegated and White.

## Prices of Class C Camellias:

	Each	10	100
6-8 inch, B&B .....		\$ 1.50	\$12.00
8-10 inch, B&B .....		2.00	15.00
10-12 inch, B&B .....		2.50	20.00
12-18 inch, B&B, branched....		4.00	35.00
18-24 inch, B&B, specimen....	1.50	12.50	
24-30 inch, B&B, specimen....	2.25	20.00	
30-36 inch, B&B, specimen....	3.00	25.00	
3-4 feet, B&B, specimen .....	4.00	35.00	

We can supply some 15-18 inch size Class C Camellias with some flower buds at 50c to 75c each, depending upon bushiness of plants.

## ORIENTAL MAGNOLIAS

Some of the most beautiful flowering trees in this world belong to this group of deciduous Magnolias. Most of them are hardy in good part of entire United States, and planting of these beautiful trees should be encouraged by nurserymen especially when they can be had at such reasonable prices as we list below.

**Magnolia Hypoleuca** — Large growing Japanese Magnolia with beautiful flowers in summer.

18-24 inch, from choice seeds....	\$3.00	\$25.00
2-3 feet, B&B .....	\$1.25	10.00

**Magnolia Liliflora** (M. Obovata)—Tulip shaped large size purplish pink flowers before leaves appear. Many stems from ground and make large size bush.

## Prices of Magnolia Liliflora and M. Soulageana Nigra:

2½ inch pot .....	\$ .25	\$ 2.00	\$17.50
12-18 inch, C. TT. ....		3.00	25.00
18-24 inch, C. TT. ....		3.50	30.00
2-3 feet, bushy, B&B .....	1.25	10.00	
3-4 feet, bushy, B&B .....	1.50	12.50	

Last two sizes are well set with flower buds. Can supply large quantity, up to ten feet.

**Magnolia Parviflora** (Oyama Magnolia)—Small size trees with very showy white flowers after the leaves appear. One of the most beautiful Magnolias.

18-24 inch, B&B .....	\$1.25	\$10.00
2-3 feet, B&B .....	1.75	15.00

**Magnolia Soulangeana**—Small size tree, with large nine petal pinkish flowers before leaves come out in spring, and one of the most beautiful flowering tree. Our 3 inch pot plants were potted in summer of 1932 and mostly 8-12 inch in size with the exception of Alba and Alexandrina which are not so large.

**Magnolia Soulangeana Alba Superba**—Similar to above, with almost white flower of larger size, with rounder leaves and more upright grower.

**Magnolia Soulangeana Alexandrina**—A few days later than Soulangeana, with a little deeper color.

**Prices of Magnolia Soulangeana, Alba Superba and Alexandrina:**

	Each	10	100
3 inch pot, C. T. ....	\$ .35	\$ 3.00	\$ 25.00
18-24 inch, B&B .....	1.00	9.00	80.00
2-3 feet, B&B .....	1.25	10.00	90.00
3-4 feet, B&B .....	1.75	15.00	125.00
4-5 feet, B&B .....	2.50	22.50	

**Magnolia Soulangeana Lennei**.—Leaves are much larger than Soulangeana, having cup shaped larger size bold flowers which open later than other Soulangeana, deep reddish purple outside, and white inside. Very choice.

3 inch pot, C. T. ....	\$ .40	\$ 3.50	\$30.00
18-24 inch, B&B .....	1.50	12.50	
2-3 feet, B&B .....	2.00	17.50	

**Magnolia Soulangeana Lennei Hybrid**—These are hybrid of Lennei, all seed being gathered from Lennei plants and most of them should come close to true type.

12-18 inch .....	\$ 2.50	\$20.00
18-24 inch .....	3.00	25.00

**Magnolia Stellata (Star Magnolia)**—A dwarf grower with numerous delicate pinkish white water-lily like flowers early in spring. One of the most beautiful of all.

2½ inch pot .....	.40	3.50	30.00
12-18 inch, bushy, B&B .....	1.25	10.00	
18-24 inch, bushy, B&B .....	1.50	12.50	

---

## GENERAL EVERGREENS

The prices of most of standard varieties of Evergreens are so low that we are grouping them in three classes of prices to simplify the matter. Marks of "I", "II" and "III" following names of each kind indicate to which group they belong. A few items are offered at special prices which are quoted immediately below their names.

All plants listed here are cutting grown, once or more times transplanted, except where marked (S.) which means seedlings, and (S. T.) meaning seedlings transplanted.

Practically all plants up to 12 inches are bed grown, but most of 12-18 inch size are twice transplanted field plants of bushy form, but called as lining out stock, and dug bare rooted. Some specially selected 12-18 size and up marked B&B are specimen plants, and prices include the cost of packing when orders are accompanied with remittances.

Some of lining out stock are offered at one group price, and same specimen at another group prices, but where only one group price is indicated, all lining out size and specimen are offered at that group prices.

We have many other varieties not listed here and solicit your inquiries.

Prices of Group "I"

	Each	10	100
4-6 inches .....	\$	\$ .40	\$ 3.00
6-8 inches .....		.50	4.00
8-12 inches .....		.75	6.00
12-18 inches .....		1.00	8.00
12-18 inches, B&B .....	.35	2.50	
18-24 inches, B&B .....	.50	4.00	
2-3 feet, B&B .....	.65	5.00	
3-4 feet, B&B .....	.90	7.50	

Prices of larger plants on application

Prices of Group "II"

	Each	10	100

3-4 feet, B&B .....	1.25	10.00	

Prices of larger sizes and quantity on application

All above prices include cost of packing, including crating and boxing of B&B plants when cash accompanied with order. For carload, or truck to be loaded without any packing, we will be pleased to quote very attractive prices on B&B plants and invite your inquiries.

BROAD-LEAVED EVERGREENS

Abelia Grandiflora

	Each	10	100
8-12 inch, C. ....		\$ .60	\$ 5.00
12-18 inch, C. ....		.85	7.00
18-24 inch, 2-year .....		1.25	10.00
2-3 feet, 2 and 3 year .....		1.50	12.00
3-4 feet, 3 and 4 year .....		1.75	15.00

**Aucuba Japonica**—(S) "III" up to 10 inch only.

**Azalea**—See pages 2 to 7.

**Barberry Atrocarpa**—"II"

**Buxus Japonica**—"II" Specimen at "III"

**Buxus Sempervirens**—"II" Specimen at "III"

**Camellia Japonica**—See pages 7 to 13.

**Camellia Sasanqua**—Mine-no-yuki (double white) and Rosea (single large pink), all cutting grown.

	Each	10	100
6-8 inch .....		1.25	10.00
8-12 inch .....		1.50	12.00
18-24 inch, B&B .....	1.25	10.00	
2-3 feet, B&B .....	1.50	12.50	
3-4 feet, B&B .....	2.50	22.50	
4-5 feet, B&B .....	3.00	27.50	

**Camellia Sasanqua**—Mine-no-yuki (double white) seedlings which are suitable for grafting stock or excellent hedge plants. "III"

**Callistemon**—(Bottle Brush)

10-12 inch, 3 inch pot .....	1.25	10.00
------------------------------	------	-------

**Feijoa Sellowiana**—"II" specimen only

**Camellia Thea**—(Tea Plant) "I"

**Cleyara Japonica**—"III"

**Cotoneaster Franchetti**—"II"

**Cotoneaster Panosa**—"II"

**Eleagnus Pungen**—"II"

**Eleagnus Pungen Variegata**—(Yellow and Green) "III"

**Gardenia Florida**—"I"

**Gardenia Veitchii**—Winter blooming Gardenia used extensively by florists. Our strain bloom almost continually.

4-6 inch, 2 inch pot .....	1.00	8.00
6-8 inch, 2½ inch pot .....	1.50	12.00

**Ilex Cassina**—(Dahoon Holly) "III"

**Ilex Cassina Angustifolia**—"III" Bear bright red berries better than any other holly, starting very young. All our specimen are well berried.

**Ilex Cornuta Femina**—(Chinese Holly) Showiest holly in the South, and perfectly at home from Gulf Coast to New Jersey. Very rare and choice. Cuttings from bearing plants.

6-8 inch. C. T. ....	1.50	12.00
6-8 inch, 2½ inch pot .....	2.00	15.00
8-12 inch, 3 inch pot .....	2.50	20.00

**Ligustrum Ionandrum**—"II" Specimen only.  
**Ligustrum Quihoui Pendulm** (Weeping Everbloom-  
 ing Chinese Privet) "II"  
**Magnolia Fuscata**, "III"  
**Magnolia Glauca**, (S), "I"  
**Magnolia Grandiflora**, (S), "I"  
**Mahonia Bealei**, (S. T.), "III"  
**Nandina Domestica**, (S. T.), "II"  
**Osmanthus Americana**, "III"  
**Osmanthus Fortuni**, "III"  
**Osmanthus Fragrance**, "III"  
**Photinia Glabra**, "I"  
**Photinia Serrulata**, (S. T.), "II"  
**Pieris Japonica** (Andoromeda Japonica), "III"  
**Pittosporum Tobira**, "II"  
**Pyracantha Lalandi**, "I"  
**Pyracantha Formosana**, "II"  
**Pyracantha Kansuensis**, "II"  
**Pyracantha Yunnanensis**, "II"  
**Quercus Acuta**, (S.), "II"  
**Quercus Cuspidata**, (S), "I"  
**Serissa Foetida Variegata**, "I"  
**Stranvaesia Davidiana**. "III"—Very hardy evergreen  
 with large clusters of scarlet berries.  
**Viburnum Macrophyllum**, "I"  
**Viburnum Odoratissimum**, "I"  
**Viburnum Suspendum**, "II"  
**Viburnum Tinus**, "II"

## CONIFERS

- Cedrus Deodara*, (S. T.), "II"  
*Chamaecyparis Lawsonia Alumni* (Blue Lawson Cypress), "II"  
*Cunninghamia Lanceolata*, (S. T.), "II"  
*Cupressus Sempervirens Royalli*, "II" — Specimen only up to 15 feet.  
*Juniperus Chinensis Albo Variegata*, "III"  
*Juniperus Chinensis Densa Glauca*, "III"  
*Juniperus C. Femina*, (J. Sylvestris), "III"  
*Juniperus C. Japonica Procumbens*, (Creeping Juniper), "III"  
*Juniperus C. Pfitzeriana*, "II" Specimen at "III"  
*Juniperus C. Sargentii*, "III"  
*Juniperus Communis Kiyonoi*, "II"  
*Juniperus Communis Depressa*, "I"  
*Juniperus C. Depressa Plumosa* (Andorra Juniper) "III"  
*Juniperus Conferta* (Shore Juniper), "III"  
*Juniperus Excelsa Stricta*, "II", Specimen at "III"  
*Juniperus Sabina Von Ehron*, "III"  
*Juniperus Virginia Cannarti*, "III" Specimens only.  
*Juniperus Virginiana Glauca*, "III" Specimens only.  
*Libocedrus Decurrens*, (S. T.), "II" Specimens only.  
*Podocarpus Sinensis* (Japanese Yew), "II"  
*Retinospora Ericcides*, "II"  
*Retinospora Filifera*, "I"  
*Retinospora Leptoclada*, "II"  
*Retinospora Obtusa*, "I"  
*Retinospora Pisfera Aurea*, "I"  
*Retinospora Plumosa*, "I"  
*Retinospora Plumosa Argentea*, "I"  
*Retinospora Plumosa Aurea*, "I"  
*Retinospora Squarrosa Veitchi*, "I"  
*Thuya Orientalis Aurea Conspicua*, "III" Specimens at "II"  
*Thuya Orientalis Aurea Nana*, "III"  
*Thuya Orientalis Bakeri*, "II" Specimen at "I"  
*Thuya Orientalis Bonita*, "II"  
*Thuya Orientalis Compacta*, (S. T.), "I"  
*Thuya Orientalis Ramsey's Hybrid*, "I"  
*Thuya Orientalis Rosedale*, "II"

## DECIDUOUS PLANTS

	10	100
<i>Cydonia Japonica</i> (Japan Quince)		
12-18 inch, T. ....	\$1.50	\$10.00
18-24 inch, T. ....	2.00	15.00
<i>Ginkgo Biloba</i> (Maiden Hair Tree)		
8-12 inch, 2-year seedlings .....	.75	5.00
12-18 inch, 2-year seedlings .....	1.00	7.00
<i>Hypericum Moserianum</i> (Goldflower)		
12-18 inch, bushy .....	1.25	10.00
18-24 inch, bushy .....	2.00	15.00

**Lagerstromia Indica (Crape Myrtle)—Watermelon Red and Pink.**

	10	100
1-2 feet -----	1.20	10.00
2-3 feet -----	1.75	15.00
3-4 feet -----	2.50	20.00

**Magnolias, (See Pages 13 and 14).**

**Malus, Flowering Crab-Apple**

**Atrosanguinea** (Brilliant Carmine).

**Coronaria** (White and Pink flowers, very fragrant)

**Floribunda** (White flowers with pink buds).

**Micromalus** (Pink flowers, dwarf grower).

**Niedzwetzkyana** (Deep red early).

**Scheidackeri** (Pink flowers).

18-24 inch, Grafted -----	1.50	12.00
2-3 feet, Grafted -----	2.00	15.00
3-4 feet, Grafted -----	2.50	20.00

**Prunus Othello.**—Have deep red leaves and an improvement over *Prunus Pissardi*.

2-3 feet, grafted -----	1.50	10.00
3-4 feet, grafted -----	2.00	15.00

**Prunus Tomentosa (Nanking Cherry).** A very desirable shrub with small white flowers followed by showy edible red fruits.

12-18 inch -----	1.50	12.00
18-24 inch, bushy -----	2.00	15.00

**Prunus Triloba Plena.**—(Double Flowering Plum)

Profusion of double pink flowers cover the entire plant in early spring.

18-24 inch -----	2.50	20.00
------------------	------	-------

**Spirea Koreana (Spirea Trichocarpa)** An improvement of *Spirea Van Houtti*.

12-18 inch, Field -----	1.50	12.50
18-24 inch, Field -----	2.00	15.00

**Spirea Anthony Waterer.**

15-18 inch, very bushy, TT. -----	1.75	12.50
18-24 inch, very bushy, TT. -----	2.25	17.50

**Spirea Thunbergii.**

12-18 inch, Field -----	1.25	7.50
18-24 inch, Field -----	1.50	10.00

**Wisteria Multijuga Rosea (Pink Wisteria).**

2-year, Grafted, Field -----	5.00	40.00
3-year, Grafted, Field -----	6.00	50.00

**PALMS, VINES, BULBS, ETC.**

**Amaryllis Vitata.**—Hybrid of all sorts ranging in color from white to deepest red and intermediate colors. Very large flowers with wide petals.

Two-year old seedlings -----	\$ .75	\$ 5.00
Three-year old seedlings -----	1.00	7.00
4-5 year old blooming bulbs -----	3.00	25.00

**Aspidistra Lurida.**

Price per good leaves -----	.60	4.00
-----------------------------	-----	------

**Bambusa Argentea**—A clump bamboo with small green canes with green leaves. Very nice for screen.

Good size clumps, B&B -----	2.50	20.00
-----------------------------	------	-------

**Bambusa Disticha**—Smaller than above with ultimate heights of 12 feet, with very fine leaves of highly ornamental value.

Good size clumps, B&B -----	3.00	25.00
-----------------------------	------	-------

**Bignonia Speciosa** — Evergreen vine with showy large green leaves and mass of large size purple flowers in spring.

	10	100
12-15 inch, C., T. ....	1.00	8.00
18-24 inch, C., TT., Field .....	3.50	25.00

**Chamaerops Excelsa Palm (Wind-Mill Palm)**—

Very hardy, fan-shaped leaf palms with slender trunk, well adapted for street plantings.

6-8 inch, 3-year seedlings .....	4.00
8-12 inch, 3-year seedlings .....	6.00
Specimen size from field:	
18-24 inch, B&B .....	6.00
2-3 feet, B&B .....	7.50
3-4 feet, B&B .....	10.00

**Cocos Australis Palms**—Recurved leaves are glaucous and very graceful. This is rather a slow grower but never get out of bound and ideal for lawn specimens. Can stand much more cold than Washingtonia and Phoenix palms.

8-12 inch, 3-year seedlings .....	6.00
12-18 inch, 3-year seedlings .....	8.00
Specimen Cocos Palms from field:	
12-18 inches in height, B&B .....	6.00
18-24 inch, B&B .....	7.50
24-30 inch, B&B .....	10.00

**Cortaderia Argentea (Pampas Grass)**

Good size clump .....	3.50	25.00
Good size division .....	2.00	15.00

**Hedera Helix (English Ivy)**

8-12 inch, 2½ inch pot .....	.75	5.00
12-18 inch, 3 inch pot .....	.90	7.00

**Hemerocallis (Day Lily)**

Apricot, low growing early bloomer.

Aurantica, deep reddish orange.

Florham, large rich, golden yellow.

Fulva, large orange yellow.

Gold Dust, golden yellow.

Kwanso, double flowering kind of Fulva.

Minor, golden yellow. Early.

Medium division .....	1.00	7.50
-----------------------	------	------

**Milletia Japonica (Formosa Wisteria)** — Vine with compound evergreen leaves and deep purple flowers produced freely during summer months are very much like ordinary Wisteria. Only offered by two or three firms in this country yet.

6-8 inch, C., T. ....	1.50	10.00
8-12 inch, C., T. ....	2.00	12.00
18-24 inch, C., TT., Field .....	3.00	20.00

**Ophiopogon Japonicum (Dragon's Beard)**—A very low grass like evergreen with spikes of purple flowers, doing well either in dark shade or in full sun. Very valuable as border plants.

Small division .....	2.00
Large division .....	3.00

**Philostochis Aurea (Giant Japanese bamboo)**—Large growing hardy bamboo, well adapted for southern United States.

Underground canes .....	1.50	10.00
-------------------------	------	-------

**Wisteria, (See page 19).**
